FOUNDER AND EXECUTIVE MANAGER MESSAGE

"More international provides full range of high quality engineering consultancy services to clients starting from schematic stage to submitting detailed tender drawings and documents.

After years of experience working with clients, we noticed that their needs are changing with time and we need to deliver all the sevices that will follow up to that change.They need a convenient space to live, work, and experience advanced technology with an affordable cost.

In addition, we have had the opportunity to implement extensive work in many projects such as material finishing, furniture, air conditioning, and acoustical partition construction to meet the needs of our clients. We are also committed to ensure the durability of the building materials and advanced equipments, integrated in our interior design and architecture works, with a staff that is evenly trained and experienced."

ENG. FADI SARRAJ

EXECUTIVE MANAGER

"MORE DELIVERS SOPHISTICATED
AND SUCCESSFUL PROJECTS."

WE DESIGN FOR YOU

MORE International Engineering Consulting, is a leading residential and commercial design firm based in Abu Dhabi. MORE International was established to respond to clients' needs and all-building related services. The firm set out small and as time went by, it started to gain trust and experience in the market and continued to grow.

Today **MORE International** is a group of professional engineers and architects offering a full range of designs and construction services including Architectural Planning, Interior Design , Landscape, Environmental studies, Energy Management, Construction and Project Management.

MORE International has a strong commitment to client satisfaction. By working closely with the clients and stakeholders, we ensure that their projects and dreams are delivered as they desire. We appreciate our clients and customers, so we go that extra mile to look for them.

OUR MISSION

To our Employees

We support the innovation and creativity of our staff. We believe that their success as individuals is the foundation of our success as a company. Therefore we will uphold their welfare, support their talents, and encourage their progress.

To the Environment

We will preserve the environment and our natural resources. We will use our knowledge and skills to reduce pollution ,eliminate hazardous peactices and decrease wastage. We will utilize our resources wisely hoping for cleaner and greener future.

To the Community

We believe that our success should benefit the community and that our prosperity should aid the local economy. Also, we will contribute to the development of the city and support its trade and integrate our business with the industry.

To our client

We will offer excellent quality **design** services to our clients by our well trained **designers**. We utilize the best available technology from project conceptualization to project completion and **occupancy**. Our services will exceed their expectations and will set a benchmark for our competitors.

WHY MORE INTERNATIONAL?

MORE INTL.

has a successful track record working with successful local and international organisations that demand consistency in quality, service and value, regardless of where their project is located. Our clients can be owners and developers in all sectors. From the beginning we strive to fully understand their objectives to provide the most effective route to success ,as we take a collaborative approach with our clients, stakeholders and trade contractors, ensuring that we are working as a team at all times.

COLLABORATIVE TEAM

We support our employees to develop their work in our firm and do their jobs with confidence, from interns training in the firm to our most experienced engineers. Our work results come from the effort of a great team, our supply chain and clients. Our team is flexible and careful to do their job as well as possible and minimise any disturbance or mistakes to the client.

OUR MISSION

HONESTY AND PRECISION

We know that the clients demands are high and our work should be delivered with high standards of quality and reliability. For that reason, honesty and precision are the forefront of the work we do and the building blocks of successful projects.

TRANSPARANCY

We always aim to deliver clear information about every stage of the project to the clients. We try to avoid any issues and if we faced any and we resolve them instantly.

KNOWLEDGE

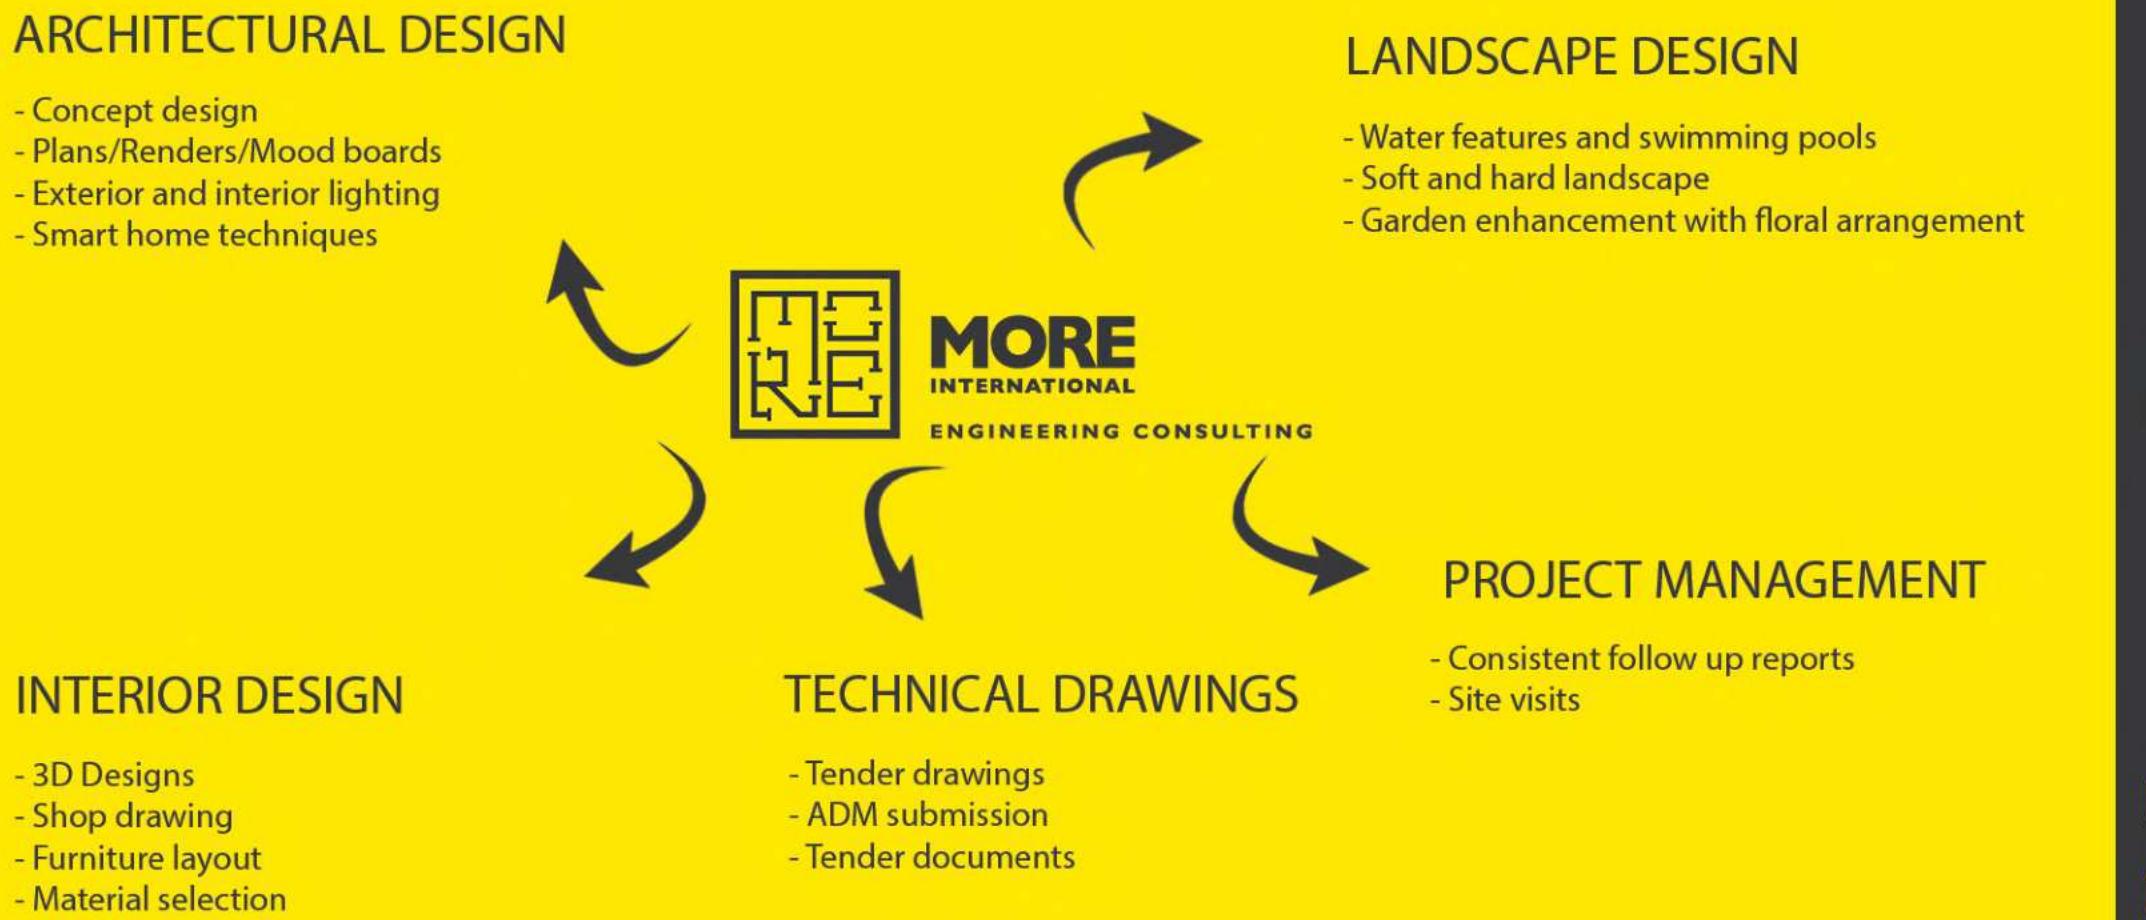

At **More Intl.** we have knowledge of the industrial and commercial sectors quite enough ,and we are well briefed in the design process and materials. In addition, we are well informed on any change in legislations.

FLEXIBILITY

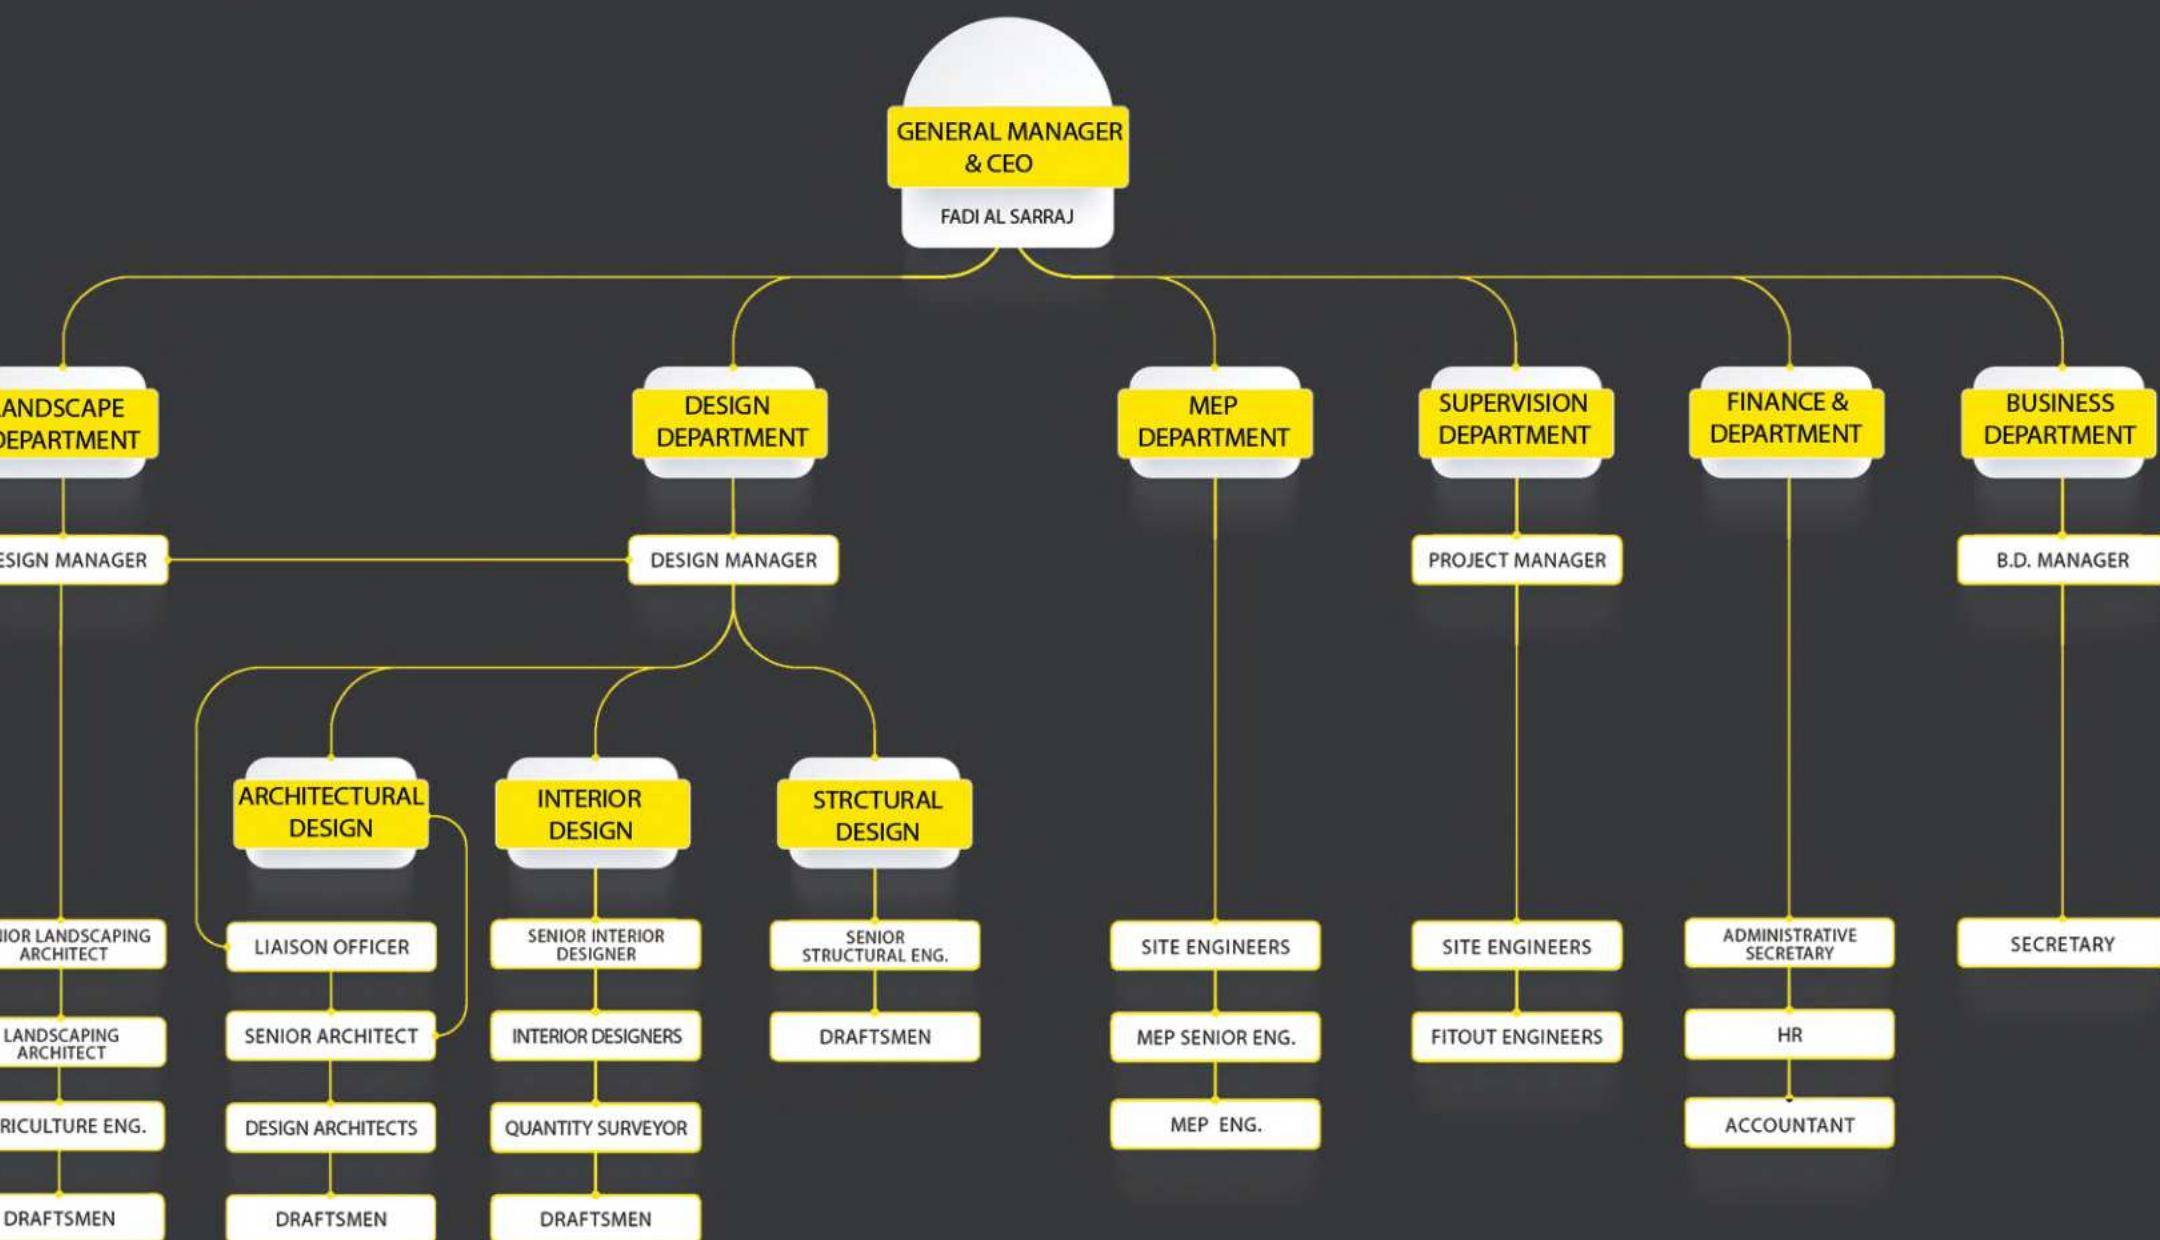

We are able to deliver substantial projects with our management philosophy that will enable us to remain responsive to our clients requirements and needs. Also,we respond to any changes or variations in some specifications or certain circumstances effectively.
